

Pressure Infusors

Quality and dependability are stitched into every pressure infusor we manufacture. Each aspect of the design contributes to the first-class reputation held by Vital Signs pressure infusor products.

- Highly visible color coded gauge accurately displays bladder pressure.
- Large inflation bulb with smooth recoil for hand comfort.
- Robust and durable construction to hold constant pressure and prevent leaks.
- Single patient use to minimize the spread of nosocomial infections via touch contamination.
- Color coded printing for rapid identification of size.
- Does not contain natural rubber latex or neoprene.

Infusable*

The nylon netting on the back ensures simple and secure placement of the fluid bag.

Available in 500ml, 1000 ml and 3000 ml.

InfusaScan*

The Infusascan features a clear PVC backing to help the clinician visualize fluid levels and allows for unobstructed bar scanning.

Available in 500ml and 1000 ml.
